## Crepe Machine

Crepe machine is equipped with steel plate for making different kinds of desserts such as pancakes, buckwheat cakes and crepes. Its compact design is perfect for buffet counters and front-of-house kitchens.

CM-1

### Highlighted Features

1. 10mm thick steel crepe pan for superior heat conductivity

2. Removable tray for crepe storage

3. Thermostat control (50-220°C) with indicators

### Specifications

Model	CM-1
Dimension (mm)	450 W x 500 D x 235 H
Crepe Pan Size (mm)	∅ 350
Voltage	220V / SPN
Loading (kW)	3
Net Weight/ Gross Weight (kg)	15 / 17

\* All specifications are subject to change without prior notice

# THERMAL PRO

**THERMAL PRO**

Thermal Equipments Series

## Modern Trend for Food Service Management

Nowadays, providing a superb dining experience to customer is no longer the only responsibility of the back kitchen, but also for front-of-house kitchen as well. With continuous development of modern foodservice management, the food temperature requirement becomes very important. Moreover, simple cooking task assigned to the front-of-house becomes very popular in restaurants. Therefore, it drives the demand for numerous types of table top thermal equipment.

THERMAL PRO thermal equipment are specially designed for warmth keeping and simple cooking purposes. All the equipment are electric operated with built-in overheat and short circuit protection device for safety, which helps maintain the best dining atmosphere.

## Conveyor Toaster

Conveyor Toaster is designed for mass toasting and the capacity is up to 300 slices per hour. The adjustable conveyor speed assure the perfect colour and texture of bread, bagels, buns and muffins. The compact design, which only requires a small space, is suitable for self-serving counters.

TT-1

### Highlighted Features

1. 9-level power control and mode selection knob

2. Removable tray (front) for toast and crumbs collection

2. Removable tray (rear) for different operational needs

### Specifications

Model	TT-1
Dimension (mm)	389 W x 418 D x 373 H
Voltage	220V / SPN
Loading (kW)	1.9
Capacity	100-300 pcs/hr
Net Weight/ Gross Weight (kg)	15 / 17

\* All specifications are subject to change without prior notice

- Three modes for selection: Buns, Toast or Stand-by
- Durable heating elements for consistent heat transfer
- W-shaped heat reflectors for evenly heat distribution
- Equipped with loading rack - continuously feeding of bread
- Toast and crumbs tray available at either front and rear access
- 79mm chamber opening for broader variety of breads

## Bain Marie - Digital Version

**T**HERMAL PRO Bain Marie provides various applications from warmth-keeping, reheating to simple boiling function. The digital version is equipped with a touch-control panel which is easy to operate. There are 3 levels of power setting and 2 operating modes. It is available in vertical or horizontal, counter-top or built-in models.

BM-5737EVD

BM-5737EBD

BM-5737ESD

### Highlighted Features

1. 2 power modes selection and 3 levels of temperature

2. Heavy duty alloy heating block

- Temperature control from 40-100°C
- Equipped with overheat protection for safety (270°C)
- Manual drainage valve

### Specifications

Model	BM-5737EVD	BM-5737ESD	BM-5737EBD
Dimension (mm)	370 W x 570 D x 267 H	570 W x 370 D x 267 H	570 W x 370 D x 230 H
Voltage	220V / SPN	220V / SPN	220V / SPN
Loading (kW)	2	2	2
Cutout Size (mm)	N/A	N/A	530 W x 330 D

## Accessories & Options

Optional accessories for multi purpose function

■ E1 - GN 1/3 pan with cover (BM-101)

■ E2 - 7" soup pot with cover and holder (BM-102)

■ E3 - Steam plate for bamboo basket

■ E4 - Noodle basket holder w/ 4nos of noodle basket (BM-103)

■ E5 - 9 grids divider (BM-104)

## Soup Cooker and Warmer

Soup Cooker and Warmer is ideal for soup holding and cooking. With the 11quart S/S container and easy-touch panel, users can switch from cooking to warmth keeping mode by one press. It is available in counter-top and built-in models.

BM1-290

BM1-290B

BM2-290

### Highlighted Features

1. 2 power modes selection and 3 levels of temperature

2. Alloy heating block for even heat distribution

- 11 quart (QT) soup container with S/S slotted cover
- Superior heating elements for heavy duty usage
- Equipped with overheat protection for safety (270°C)

## Hot Display Case

Hot Display Case with tempered glass side panels and door provide a full visibility of food displayed. It performs excellently in reheating and holding food temperature by evenly spreading moisture and heated air inside the cabinet. It is suitable for convenience stores, snack counters, fast food restaurants and bakeries.

FOTM-80G

FOTM-80RX

FOTM-80B

### Highlighted Features

1. Thermostat control(30-85°C) with manual water refill inlet

2. Hot air diffusers for even heat distribution

- Humidity control to food holding in long term while keeping moisture
- Aluminum housing with tempered glass side panel for 360° full view
- Additional lighting for display effect
- Capacity for stationary model (Model suffix: BX/RX/GX):
  - 4 tiers rack with shelvings
- Capacity for rotatory model (Model suffix: B/R/G):
  - 4 tiers rack with round pizza stand

## Sous-Vide Cooker

Sous vide is a technique which vacuum-seals food in a plastic bag, and poaching in a water bath. This would achieve the desired "doneness" and consistency by manipulating the cooking temperature and time. THERMAL PRO Sous-Vide Cooker will be your best partner for slow cooking menus.

SVC-100D

### Highlighted Features

1. Simple and easy to use control panel

2. Adjustable grid dividers for different compartment size

- Precise temperature control from 30-80°C (at tolerance within 1°C)
- Simple to use water bath design
- Timer control up to 999 mins for extended long hour cooking
- Manual drainage valve  
Polycarbonate centre hinge lid cover as standard accessories

### Specifications

Model	SVC-100D
Dimension (mm)	370 W x 570 D x 273 H
Voltage	220V / SPN
Loading (kW)	1.3
Net Weight/ Gross Weight (kg)	9 / 10

\* All specifications are subject to change without prior notice

## Chocolate Tempering Machine

Chocolate Tempering Machine is specially designed for extracting and holding precious cocoa butter from cocoa beans. Excellent cocoa butter can only be formed under a special process, "Tempering", which crystallizes the cocoa butter under a particular temperature by melting real chocolates. The cool and tempered chocolates will have the proper sheen, snap and taste.

BM-3543CT

### Highlighted Features

1. Forced air heating system for even heat distribution

2. Fit for different combinations of GN pans

- Manual temperature adjustment from room temperature to 45°C for the best control of chocolate's viscosity
- User friendly design with precise interface
- Fully automatic micro-controller by using forced air
- Equipped with overheat protection for safety (130°C)

### Specifications

Model	BM-3543CT
Dimension (mm)	350 W x 432 D x 208 H
Voltage	220V / SPN
Loading (W)	160
Net Weight/ Gross Weight (kg)	4 / 5
