

## 矮汤炉系列

电磁单头矮汤炉 (15kW)  
Induction 1-zone low stock pot (15kW)

## 产品特点

## Description

- 整体台面冲压成型，高档微晶玻璃面板
- 15kW大功率电磁炉矮汤炉
- 电磁炉无明火、无废气，可减少环境污染
- 电磁感应加热，热效率高达90%以上
- 微电脑温控系统，具有无锅检测,设置超温，自动故障检测，电压过高过低及缺相保护等
- 火力电子显示，可调节大小
- 多档火力调节，恒功率输出，循环散热结构
- 双重金属壳屏蔽设计，防止电磁辐射。
- 超静音设计，工作环境安静舒适。
- 机芯内部器件全部密封设计，可有效防止油垢、虫、水汽等进入，延长机芯的寿命
- 机芯内部电路全模块化设计，各模块采用插接方式，维修保养方便

- One-piece work top, premium ceramic glass panel
- 15KW heavy duty induction stock pot stove
- No open flame, no flue gas emission, non-greasy and reduce pollution to protect environment
- Inductive heating, fast and quick recovery. Heating efficiency >90%
- Microcomputer controlled supervision and safety of system, protection devices such as pot detection, high temperature limit, high or low voltage disconnect and open-phase protection, temperature protection, voltage abnormally
- Multi-level power cycle adjustment, constant output with digital display
- Multi heat power for options, circulating heat-dissipation structure
- Double-layered SS shell can prevent electromagnetic radiation
- Low noise, provide silent areas for individuals to work in comfort environment
- Sealing designed of the heating core, anti pests, water proof, prolong service life
- Modular designed of the heating core, adopted plug connection between each module, convenient for maintenance
